Visa Status: Visit Visa | Available to join immediately
Portfolio: drgrow.in | aquaconnect.blue | fishchoice.in | panchathanlogistics.com

PROFESSIONAL SUMMARY

Front-end developer with 3+ years of experience building websites and web apps in React.js, Tailwind CSS and JavaScript. Shipped live sites for an aquaculture company and a logistics firm, worked on a Java-backed meal delivery app, and did freelance work for a UK badminton events platform. Comfortable turning a UI design into a responsive page and connecting it to REST APIs. Based in Dubai and looking for a front-end developer role.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Material-UI, GSAP, Responsive Design, Performance Optimization

Backend and APIs: REST API integration, Core Java (basics)

Database: MongoDB, MySQL

Tools: Git, Bitbucket, VS Code, Postman, MySQL Workbench, Agile (Scrum)

PROFESSIONAL EXPERIENCE

Aquaconnect, Chennai, India **April 2025 - June 2026**
Front-End Developer (Consultant)

- Built the DrGrow website (drgrow.in) from scratch for the company's new market launch.
- Built the Fish Choice website (fishchoice.in) in React.js and Tailwind CSS, with GSAP scroll animations.
- Built Blutik, the quality-check tool featured on Aquaconnect Global, generating tamper-proof inspection reports before export.
- Maintained and improved the Aquaconnect.blue website and its global, multi-language version at aquaconnect.blue/global.

Panchathan Logistics, Chennai, India **May 2024 - April 2025**
Software Engineer (Front-End)

- Built the complete company website from scratch, including a live shipment tracking tool, a quote request form and a scroll-based storytelling section for the homepage.

Intronsoft, Madurai, India **Feb 2023 - March 2024**
Associate Software Engineer Trainee

- Worked on the full UI revamp of the Sunfare meal delivery platform using React.js and Material-UI.
- Connected the front end to a Java backend through REST APIs and fixed usability and layout issues on mobile screens.

PROJECTS

DrGrow Website (drgrow.in) | *React.js, Tailwind CSS*

- Website for DrGrow, Aquaconnect's aquaculture biologicals brand (probiotics, oxygen boosters, disinfectants, feed supplements), with product pages and enquiry forms, now used by over 6,000 farmers across India.

Aquaconnect Global (aquaconnect.blue/global) | *React.js, Tailwind CSS*

- Global seafood sourcing platform connecting international buyers with Indian processors, with English, Russian, Chinese and Vietnamese language support.

Panchathan Logistics Website (panchathanlogistics.com) | *React.js*

- Company website for a logistics firm with a clean, modern design, including a live shipment tracking tool and a quote request form.

Fish Choice Website (fishchoice.in) | *React.js, Tailwind CSS, GSAP*

- Product site for Fish Choice, a floating fish feed for IMC and exotic carp farming, built to explain its nutrient formula and support for better growth and feed conversion.

VJOIN, Badminton Events Platform (vjoin.app) | *Freelance, UK client*

- Built front-end features for a platform where badminton players organize groups and join events, including event scheduling and member-facing screens.

EDUCATION

K.L.N. College of Engineering, B.Tech in Information Technology (CGPA: 8.15) **2022**
